Since 1964, through CIGP and its predecessor companies, we have been managing assets on behalf of sophisticated and entrepreneurial high net worth individuals, families and institutional clients, with whom we have built long-standing relationships across generations.

We regularly act as business partners with our select client base and invest their assets as we would do with ours.

Our business model is based on four areas of expertise:

- [Private wealth management](#)
- [Asset management](#)
- [Alternative investments](#)
- [Corporate finance advisory](#)

We like to consider ourselves as an independent, open-architecture and unbiased partner to our clients.

Our dedicated [management team](#) has a long-standing and successful track record in the international financial sector, cumulating more than 100 year experience in the industry.

CIGP Group is headquartered in [Geneva](#), with offices in [Hong Kong](#) and [Dubai](#).

CIGP Group head office is regulated by the OAR-G, an affiliated member of the [FINMA \(Swiss financial regulatory body\)](#) and as such, it operates as a Swiss-regulated financial intermediary. Its affiliated companies are locally licensed and regulated by the [Hong Kong SFC \(Securities and Futures Commission\)](#) and [UAE RAK Investment Authority](#).
